

NOVAGARD
Solutions[™]
Engineered Products... Innovative Thinking

April 24, 2015

To Whom it May Concern:

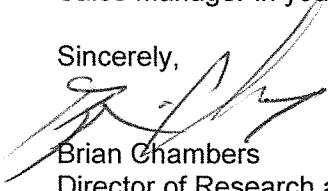

Novagard Solutions, Inc. is pleased to report that all of the products manufactured by the company, inclusive of Foam Seal PVC Foam, Novagard Industrial Silicone Products, NOVAGARD UV® Products, NOVAFLEX® family of silicone and modified silicone sealant products, and Versilube® Silicone Compounds and Greases*¹ comply with the European Restriction of Hazardous Substances (RoHS 2) directive.

Specifically, none of the products manufactured and sold*¹ by Novagard Solutions, Inc., inclusive of the product families named above, contain or exceed the restricted levels of any of the following hazardous substances, including: lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenylether (PDE), octa-bromodiphenylether, deca-bromodiphenylether, azocolorants, plasticizers (DBP), or plasticizers (DEHP).

Since its establishment over 30 years ago, Novagard Solutions, Inc.[™] has provided engineered materials solutions for demanding applications in the automotive, building construction, electrical, medical, general industrial, and product assembly industries. The company has made an everlasting commitment to quality and continuous process improvement as demonstrated by its SIO 9001:2008 and IOS/TS 16949:2009 registrations. The company is critically aware of its environmental responsibility as a corporate citizen to maintain an emphasis on production of existing and new products which have a minimal environmental footprint. Since the 80's Novagard Solutions has been dedicated to leading the industry with environmentally superior specialty chemical products. Novagard Solutions continuously strives to develop new products and technologies which minimize environmental impact and promote the health and well-being of their customers and employees and is proud to announce its compliance with the European RoHS 2 Directive.

For other information regarding this topic or about Novagard Solutions, Inc. and their extensive list of engineered products please contact them at novagard@novagard.net to reach a Regional Sales Manager in your area of Customer Service by phone at 1-800-380-0138 (USA).

Sincerely,

Brian Chambers
Director of Research and Development

Note 1: G322L does not meet the RoHS requirement; however, an alternate formulation is being developed and tested for customer approvals which will be RoHS 2.0 compliant. Novagard Solutions®, NOVAGARD UV® and Versilube® are registered trademarks of Noavagard Solutions, Inc.
