

# Novaflex is great on all kinds of surfaces. Even company signs.

Tom Baginski,  
Service Manager

To survive in the competitive New York City-area **commercial roofing market**, you need good talent and good materials. Arco Construction of West Caldwell, NJ has the materials side covered with Novaflex Metal Roof Sealant. "It goes on nice and smooth," said Fred Kostialik, Superintendent of Construction. "My guys have no complaints and we get no callbacks."

Novaflex Metal Roof sealant provides superior flexibility and adhesion to most construction materials. Arco likes Novaflex's performance, and the packaging. "The tube is made of better material, it has better weatherability," said Tom Baginski, the company's service manager. The crews also like the replaceable tip, and the variety of colors. "Every color you got, we use them all," said Tom. Arco is so impressed by Novaflex that they used it to seal the seams in the company sign by their entrance.

Get a free sample tube of Novaflex Metal Roof Sealant by scanning the QR code or giving us a call at 800-380-0138. Or send an e-mail to [NovaflexRoofing@novagard.net](mailto:NovaflexRoofing@novagard.net).
