

"We love Novaflex Sealant"

Mike Farist, President, Craftsman Restoration and Remodeling

Craftsmen Restoration, one of the country's premier insurance restoration companies, is always on the lookout for better building materials. When they tried new Novaflex Multi-Purpose Adhesive Sealant, they knew they had a winner.

"Right away our crews liked the ease of application, especially in cold weather," said COO Phillip Petrie. "It shrinks less than the product we used to use." Novaflex Multi-Purpose Adhesive Sealant creates a weather-tight seal. Its exclusive silicone oxime formulation gives it outstanding weather and UV resistance for seals that stay flexible

for decades with excellent adhesion on windows, doors, siding, gutters, metal roofs and more.

Craftsmen's crews also like Novaflex's smoother application. "It runs a beautiful bead," said project manager Andy Scheks. Better application means fewer callbacks. "The longer nozzle gets us into tighter areas," added Andy, "and the nozzle's removable so there's no waste."
