

**For immediate release**

***Novagard Solutions and SRS Acquisition Corporation have announced today a partnership for the supply of NOVAFLEX® Metal Roof Sealant for customers served by SRS Acquisition's 59 locations operated in 23 states.***

CLEVELAND, OH and MCKINNEY, TX, October 12<sup>th</sup>, 2011 – Novagard Solutions™, Inc. a leading supplier of engineered chemical products serving the needs of the window, door and siding dealers, building material wholesalers and contractors along with SRS Acquisition Corporation (a.k.a. SRS Roofing Supply) a parent holding company of a family of industry-leading independent roofing distributors have announced that NOVAFLEX® Metal Roof Sealant, used in commercial and residential metal roofing applications, is now available through the 59 locations operated in 23 states by SRS Roofing Supply's family of independent roofing distributors.

NOVAFLEX® Metal Roof Sealant is the only "A" level sealant vendor for SRS Corp's 59 locations. The NOVAFLEX® family of products satisfy all of SRS Corp's major installation trade businesses including roofing, windows, siding, gutters, trim and doors. NOVAFLEX® Metal Roof Sealant offers superior product performance compared to traditional roof sealants. The product is solvent free (100% solids), is V.O.C. compliant meeting CARB and OTC regulations, easily gunned at all temperatures and easy to cleanup making this product universally liked by contractors in northern and southern climates. The product offers industry leading weatherability and UV resistance and is mold/mildew resistant. NOVAFLEX's® plastic tubes and exclusive Tip Kits eliminate headaches for distributors and contractors alike with easily applied tips for gunning the sealant and sealing caps to protect the sealant for use at a later time.

Testing of NOVAFLEX® silicone Metal Roof Sealant demonstrates that it offers improved benefits of superior UV resistance, superior weatherability, outstanding adhesion to Kynar® coated metal roof substrates, a tack free time less than 15 minutes, total cure in as little as 24 hours and has shrinkage on cure of 1 to 4%. It extrudes easily down to 0° F, is mildew resistant and has been shown to offer superior adhesion to Kynar® coated metal, steel and aluminum metal roof substrates than traditional roofing sealants. The combined effect of these features offers metal roof installation or metal roof repair applications with a superior technology sealant adhesive system and for the contractor offers superior ease of use and cleanup.

Novagard Solutions™, Inc. and SRS Acquisition Corporation have joined forces to create a powerful national program to supply and service all 59 of SRS's distributor locations with the recently introduced NOVAFLEX® Metal Roof Sealant.

“For more than 30 years, Novagard Solutions™ has been developing new engineered products for all types of applications in the construction industry, including window & door, trim, siding, gutter and metal roof applications, and this product offers an exciting new entry to our product offerings”, said Michael S. Sylvester – Founder and CEO. “The motto, Engineered Products...Innovative Thinking, further expresses our goal of providing not only products, but solutions to our valued customers. We are registered to ISO 9001:2000 and ISO/TS 16949:2002.”

If you are attending the METALCON International 2011 trade show in Atlanta, GA October 11 – 13, 2011, please visit the Novagard Solutions™ team at booth 612 on the main floor of the exhibition area.
