

**FOR IMMEDIATE RELEASE**

## **NOVAFLEX Launches New Seam Sealer Product**

*Novagard Solutions® launches new Seam Sealer product in Novaflex line*

CLEVELAND, OH – February 2016 – Novagard Solutions®, a manufacturer of premium silicone sealants and adhesives, is launching a new product as part of the Novaflex family. The Novaflex Seam Sealer will be manufactured for use in the window industry to seal rivet, corner and butt joint seams, as well as screw heads.

Novaflex Seam Sealer is a neutral cure product manufactured to meet the needs of fenestration assembly with its self-leveling performance and excellent adhesion to many substrates, including aluminum, vinyl and PVC windows. It becomes tack free in 10-15 minutes and is fully cured in 24-48 hours. Once fully cured, Novaflex Seam Sealer remains permanently flexible moving with the expansion and contraction of the joints from temperatures ranging from -20°F to 120°F. This product is UV resistant so there is no shrinking or cracking, as well as low odor release.

To obtain more information about the newest member of the Novaflex family, please visit our website at [www.novagard.com](http://www.novagard.com) or call to speak with a Sales Manager at (800) 380-0138.
